

Centre for
NATURAL MEDICINE
Naturopathic Health and Wellness Clinic

The Doctors at the Centre for Natural Medicine are able to provide in person appointments. For all in-office appointments we do ask if you are symptomatic in any way to give our office a call so we can connect you with your Dr to discuss the most appropriate appointment type for you. We *continue* to offer telephone or video consultations for new or follow-up appointments if that is your preference.

Product purchases will continue to be an *option* through curbside pick up. Give us a call and we will process payment and set your items aside. We have designated parking in the back of our building. Upon arrival, call the number posted and we will meet you at the back door with your package. If you prefer to pick up your medicine by coming in person that is also available. Feel free to call ahead to be sure we have your items in stock.

Current office hours are Monday to Friday 9:00am-5:00pm, call for Saturday hours.

Thank you!
